

Environmental Policy Statement

Star Micronics GB Limited

Environmental Policy

Star Micronics GB Limited (The Company) cares for the environment in all its forms and recognises that concern for the environment should be an integral and fundamental part of the business.

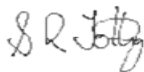

The Company is aware of the effects its operations may have upon the environment; its objective is to balance the need to achieve the aims of the business with the need to minimise any adverse affects our operations may have upon the local and global environment.

In particular, The Company, will:

- a) comply with or exceed, the requirements of relevant environmental legislation and industry codes of practice;
- b) operate within the guidelines of an environmental management system based upon ISO 14001;
- c) seek to reduce raw material and resource consumption, minimise waste, reuse rather than dispose and promote recycling through a programme of continuous improvement;
- d) educate and train all employees in the application of this policy;
- e) recognise and take such action with regard to concerns of interested parties such as customers, suppliers, regulators, public, shareholders and insurers;
- f) work with suppliers and customers to minimise environmental impacts;
- g) ensure appropriate resources are made available to implement this policy effectively.

The Company will, upon request, provide interested parties with copies of this policy.
